### *Enabling Love*

Springtime growth in nature alerts us to a renewed awareness of the crucial importance of the sun's energy. Focussing this energy influences every aspect of God's creation and in particular our own lives. In recent times, the continuing development of solar panels is enabling people to focus the sun's energy to provide heat and light.

Like the sun, God's unconditional love is everywhere. To be fully enriched by it, we need to repeatedly focus our hearts on the awesomeness of His gift of love. The Holy Spirit is the central expression of the Father's love for His son, Jesus and Jesus' reciprocal love for His Father. Through this Holy Spirit, God lives within us and energises our love. Pentecost is a special opportunity to allow the Holy Spirit to flood our hearts with this divine loving presence.

Like God's love, all genuine love needs receivers as well as givers. It needs to be prioritised, to have uncluttered heart space to grow into the energising wonder of its possibilities. It needs to blossom into generous service in the community, into care for the environment, into keeping hope and joy alive in anxious times and in times of prayer. Being made in God's image, we are capable of loving like He loves. We must not be shy about living up to our potential.

Let the Holy Spirit guide us in this Pentecost time to set the energy panel of each of our hearts at the appropriate angle to receive the fullness of God's energising love.

"Come, Holy Spirit"
